DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11/10/2003 has been entered.

Response to Amendment

2. The present Office action is made in response to the amendment (Paper No. 19) filed on 10/08/2003.

Election/Restrictions

3. Claim 1 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 20-38 and 60-62, directed to the species of II no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Art Unit: 2872

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Drawings

4. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the feature relating to a protrusion or a spacer member for setting the interval between the surfaces of the first and second bodies as recited in claim 36 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Specification

5. The disclosure is objected to because of the following informalities: The specification fails to provide a definition for each of the terms appeared in the formula provided in page 36. Appropriate correction is required.

Claim Rejections - 35 USC § 112

6. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

7. Claims 24, 26, 28, and 30 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter

Art Unit: 2872

which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

The specification does not disclose a set of prisms having an interval between the surfaces of the two prisms varies monotonically and the transmission surface of a prism is a rotationally-asymmetrical surface.

8. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

9. Claims 18-19, 32-33 and 55-56 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

a) Each of claims 18, 32 and 55 is rejected under 35 USC 112, second paragraph because it is unclear about the structure and the arrangement of the reflecting member with respect to the first and second bodies. In particular, it is unclear about the position or the structure of the elements claimed in the feature thereof "said image inverting...roof surface" (lines 1-4).

b) Each of claims 19, 33 and 56 is rejected under 35 USC 112, second paragraph because it is unclear about the structure and the arrangement of the reflecting member with respect to the first and second bodies. In particular, it is unclear about the position or the structure of the elements claimed in the feature thereof "said image inverting...exit surface" (lines 2-4).

Art Unit: 2872

Allowable Subject Matter

10. Claims 1-17, 20-23, 25, 27, 29, 31, 34-54 and 57-64 are allowed over the cited art.

11. Claims 18-19, 32-33 and 55-56 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
